

ZERO ROBOTICS

ISS PROGRAMING CHALLENGE

Invite Students to Your Team

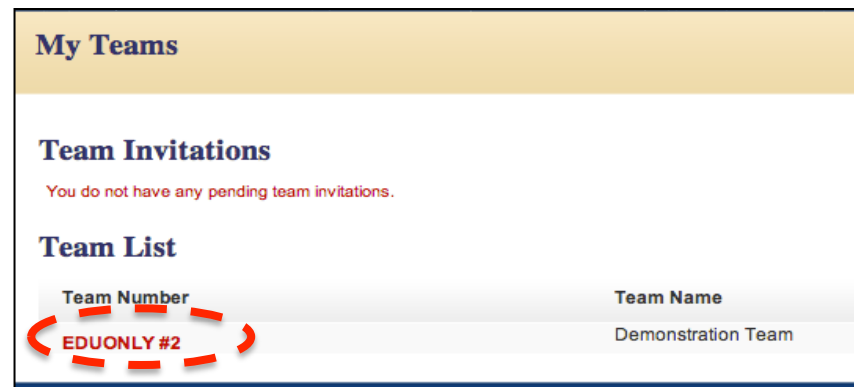

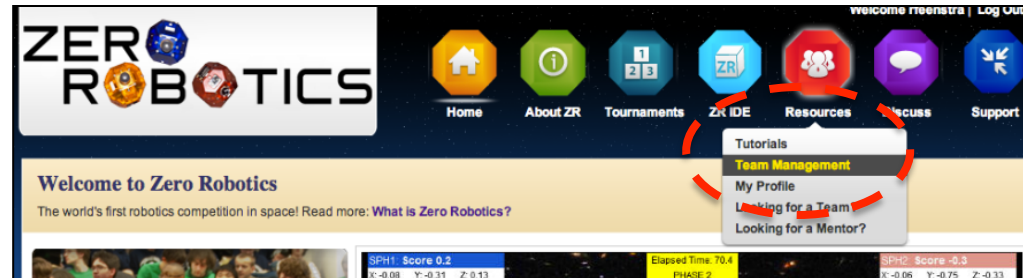

Invite Team Members

To begin:

- Mouse over the “Resources” icon in the top menu
- Select “Team Management”
- In the Team List, click on your Team Number (“EDUONLY #2” in the example)

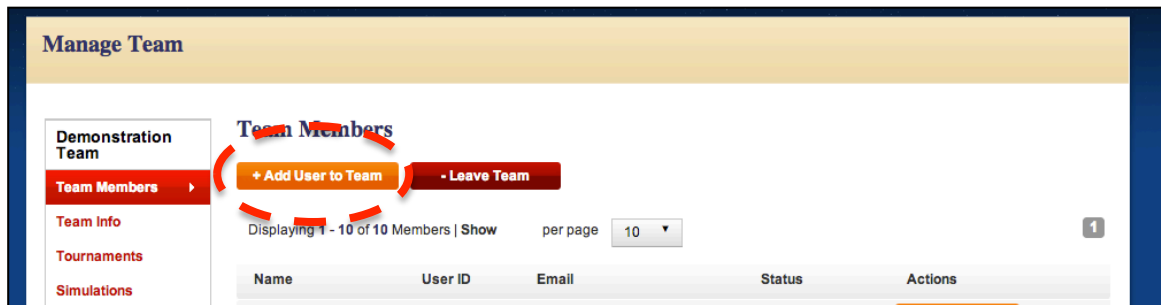

Invite Team Members (cont.)

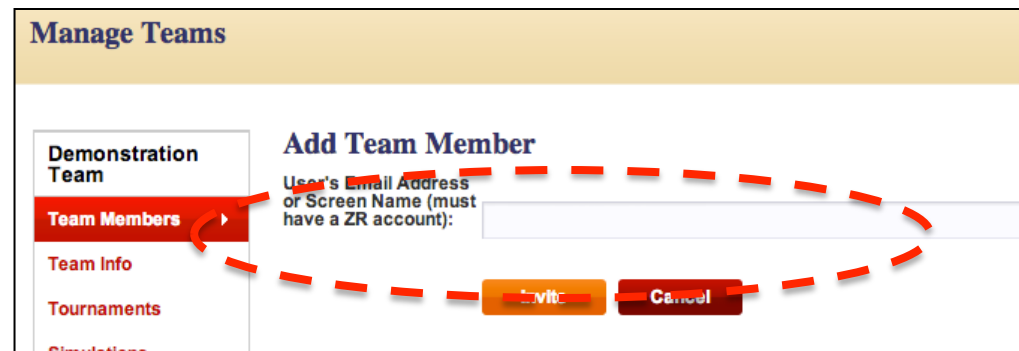

To add team members:

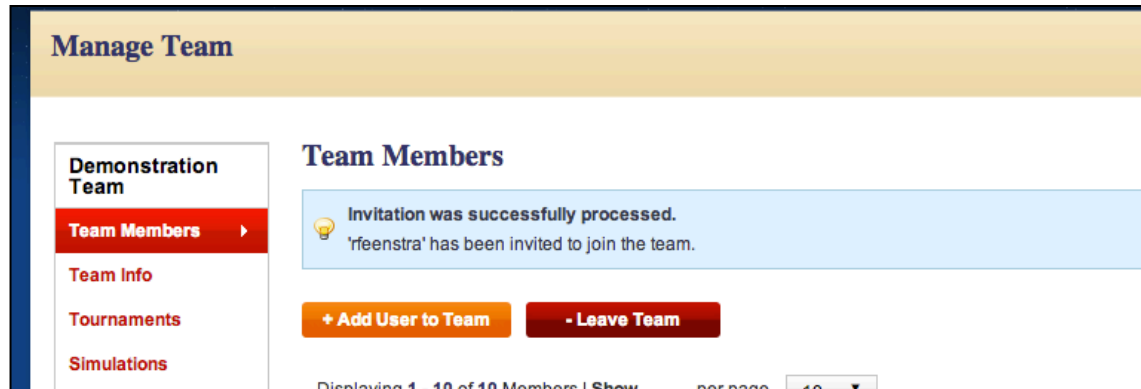

- Select “Team Members” and click on “Add User to Team”
- Enter user’s email address or screen name

Reminder: Each user added as a Team Member must have already created a ZR account

Invite Team Members (cont.)

- An email will be sent inviting the user to join your team
- The user can become a team member by following the directions in the email
- You can make a user a team lead by clicking “Set as Lead” next to the user’s name in the Team Members screen
- A team lead can add members to the team and submit code to competitions
- The mentor who registered the team is automatically a lead
